Senior teacher Jizzakh State Pedagogical University

Annotation: In UK there are a lot of stages of education: early years, primary, secondary, further education and higher education. Education is compulsory for all children between the ages of 5 and 16. Further education is not compulsory and covers non-advanced education which can be taken at further education colleges and higher education institutions. The last stage, higher education, is study beyond GCE A levels and their equivalent which, for most full-time students, takes place in universities and other higher education institutions and colleges.

Key words: education system, primary education, higher education, further education, secondary education.

The education system in the UK is separated several stages, including primary education, secondary education, further education, and higher education.

Primary education typically begins at age 4 or 5 and continues until age 11. Children are taught a wide range of subjects, including English, mathematics, science, history, geography, art, and physical education.

Secondary education begins at age 11 and continues until age 16. Students study for their General Certificate of Secondary Education (GCSE) exams, which cover a range of subjects and are usually taken at age 16.

After completing their GCSEs, students have the option to continue their education at a further education college or sixth form, where they can study for A-level qualifications or vocational qualifications.

Higher education in the UK includes universities and colleges that offer undergraduate and postgraduate degrees. The UK is home to some of the world's most prestigious universities, including the University of Oxford and the University of Cambridge. There are a wide range of courses available, covering subjects such as arts, sciences, engineering, business, and more.

The education system in the UK is overseen by the Department for Education, which sets national curriculum standards and provides funding for schools. There are also regulatory bodies such as Ofsted, which inspect and regulate schools to ensure they meet certain standards of education quality.

Overall, the UK education system aspirations to provide a high-quality education for all students and prepare them for further study or employment. The UK education system is known for its high academic standards and prestigious institutions, making it a popular destination for students from around the world.
