

## I WANT TO LEARN LANGUAGES AND MAKE MY VILLAGE FAMOUS

*9<sup>th</sup> grade student of public school № 42  
Davronbekova Dilnoza Dilshodbek qizi*

**Annotation.** In this article, 9th-grade student Dilnoza shares her dream of learning multiple languages to bring fame and recognition to her small village. She outlines her motivations, which include personal growth, cultural connection, and opportunities for her village. Dilnoza sets specific goals and strategies for language learning, such as starting with English, using online resources, and creating an immersive environment at home. She plans to use social media, blogging, and cultural exchange programs to share her village's unique heritage with the world. Dilnoza also discusses promoting local art and crafts to attract international attention. Despite facing challenges like limited resources and the need for motivation, she is determined to overcome these obstacles and gain support from her community. Her ultimate goal is to enrich her life and bring new opportunities and pride to her village by making it known globally.

**Key Words:** language learning, personal growth, cultural connection, village recognition, English proficiency, online resources, immersive learning, social media, blogging, cultural exchange, local artisans, global market, motivation, community support, international attention, heritage sharing, opportunities, pride, determination, global network

## Я ХОЧУ ВЫУЧИТЬ ЯЗЫКИ И СДЕЛАТЬ СВОЮ ДЕРЕВНЮ ЗНАМЕНИТОЙ

Давронбекова Дилноза Дилшодбек кызы*

**Аннотация.** В этой статье ученица 9-го класса Дилноза делится своей мечтой выучить несколько языков, чтобы принести известность и признание своей маленькой деревне. Она описывает свои мотивы, которые включают личностный рост, культурные связи и возможности для ее деревни. Дилноза ставит конкретные цели и стратегии изучения языка, например, начать с английского, использовать онлайн-ресурсы и создать иммерсивную среду дома. Она планирует использовать социальные сети, блоги и программы культурного обмена, чтобы поделиться уникальным наследием своей деревни со всем миром. Дилноза также обсуждает продвижение местного искусства и ремесел для привлечения международного внимания. Несмотря на такие проблемы, как

ограниченность ресурсов и потребность в мотивации, она полна решимости преодолеть эти препятствия и заручиться поддержкой своего сообщества. Ее конечная цель — обогатить свою жизнь и принести новые возможности и гордость своей деревне, сделав ее известной во всем мире.

**Ключевые слова:** изучение языка, личностный рост, культурные связи, признание деревни, знание английского языка, онлайн-ресурсы, иммерсивное обучение, социальные сети, ведение блогов, культурный обмен, местные ремесленники, глобальный рынок, мотивация, поддержка сообщества, международное внимание, обмен наследием, возможности, гордость, решимость, глобальная сеть

### **Introduction**

Hello, my name is Dilnoza, and I am a 9th-grade student. I live in a small village nestled in the picturesque countryside. While our village is beautiful and full of kind-hearted people, it remains relatively unknown to the rest of the world. I have a dream to change that. My ambition is to learn multiple languages and use this skill to make my village famous. I believe that by bridging the gap between different cultures and sharing our unique heritage, I can bring recognition and pride to our community.

### **The Power of Language**

Languages are more than just a means of communication; they are a gateway to different cultures and perspectives. By learning new languages, I can connect with people from all over the world, understand their ways of life, and share the beauty of my village with them. I see language learning as a tool to break down barriers and build a global network of friends and supporters for our village.

### **Why I Want to Learn Languages**

#### **Personal Growth**

Firstly, learning languages is an excellent way for personal growth. It challenges the brain, improves memory, and enhances cognitive skills. For me, mastering a new language feels like unlocking a new level in a game – each word learned is a step closer to a whole new world of understanding.

#### **Connecting Cultures**

Secondly, languages are a bridge between cultures. Our village has a rich history and many traditions that are unique to our region. By learning different languages, I can share our stories, customs, and traditions with people from other countries. This cultural exchange can foster mutual respect and admiration, making our village a known and respected place.

#### **Opportunities for the Village**

Lastly, I believe that by making our village known to the world, we can attract visitors, students, and even businesses. This can bring development and new

opportunities to our community. Improved infrastructure, better education, and more job opportunities could result from increased attention and interest in our village.

### **My Plan to Learn Languages**

#### **Setting Goals**

To achieve my dream, I have set specific language learning goals. I plan to start with English, as it is a global language and widely spoken. Once I am proficient in English, I will move on to other languages such as Spanish, French, and Chinese. Each language will open new doors and allow me to reach different parts of the world.

#### **Utilizing Resources**

In our village, resources for learning languages are limited, but I am determined to make the most of what we have. I will use online resources such as language learning apps, websites, and videos. Additionally, I will seek help from teachers and anyone in our village who speaks another language. Every opportunity to practice and learn is valuable.

#### **Immersive Learning**

Immersion is one of the best ways to learn a language. Although I cannot travel to different countries, I can create an immersive environment at home. I plan to watch movies, listen to music, and read books in the languages I am learning. This will help me understand the context in which words and phrases are used, and improve my listening and comprehension skills.

### **Sharing Our Village with the World**

#### **Social Media and Blogging**

Once I have gained proficiency in different languages, I will use social media platforms and blogging to share stories and information about our village. By writing blogs and making videos in multiple languages, I can reach a wider audience. I will talk about our culture, traditions, festivals, and the natural beauty of our surroundings. This content can attract tourists and people interested in learning more about our way of life.

#### **Cultural Exchange Programs**

Another way to make our village famous is through cultural exchange programs. I will work towards establishing connections with schools and organizations in other countries. By hosting exchange students and organizing cultural events, we can showcase our village to the world. These programs will also give our villagers a chance to learn about other cultures and broaden their horizons.

#### **Promoting Local Art and Crafts**

Our village is home to many talented artisans who create beautiful handicrafts. I will use my language skills to promote these crafts on international platforms. By creating an online marketplace and writing descriptions in multiple languages, I can

help our artisans reach a global market. This will not only bring fame to our village but also improve the livelihoods of our local artists.

### **Overcoming Challenges**

#### **Limited Resources**

One of the biggest challenges I face is the limited resources available in our village. However, I believe that with determination and creativity, I can overcome this obstacle. I will make use of free online resources and seek help from anyone who can guide me. Additionally, I will look for scholarships and programs that support language learning.

#### **Staying Motivated**

Learning a language is not easy and requires a lot of time and effort. There will be times when I feel discouraged or frustrated. To stay motivated, I will set small, achievable goals and celebrate each milestone. I will also remind myself of the bigger picture and the positive impact my efforts can have on our village.

#### **Gaining Support**

Convincing others of the importance of my dream might be challenging. Some may not see the value in learning languages or promoting our village. To gain support, I will share my vision and explain how it can benefit everyone. By showing tangible results and successes along the way, I hope to inspire others to join me in my mission.

#### **Conclusion**

I am passionate about learning languages and using this skill to make my village famous. I believe that through hard work, determination, and the support of my community, I can achieve this dream. By connecting with people from around the world and sharing the beauty of our village, we can put our small, yet wonderful, community on the global map. This journey will not only enrich my life but also bring new opportunities and pride to our village. Together, we can make a difference and show the world what makes our home so special.
