Gavletsky, Soppaslı Sıpira Jıraw, Jiyrenshe sheshen, Künkhoja, Ğiniyaz Qasıbay ül, Berdaq Ghargabay ül, Ótesh Alshinbai son, Omar Suyirbek son, S. Májitov, K. Ávezov, A. Musaev Public education system of Uzbekistan and Karakalpakstan, our Republic Constitutions, Presidential Decrees, Government Decisions, Education Regulations, It is created and managed based on the national direction of personnel training. [1:54]

Great attention is paid to education and its development in our country job opportunities are very well established, as well as in our country a person's free education is guaranteed by statute. To our independent country let's get acquainted briefly with the introduction of education. It is known that in ancient times education was carried out in the process of life and work. Years During this period, this method of education did not meet the demand and education was slow and education, summarizing experiences, reading, and opening places of education the school came into existence as a result of perceived needs. The school word is from the Greek language the derived word means free time, rest from work.

In the early days, it was understood that it was a school, where literate people talked, later a group of students, a teacher and a student appeared. Schools are old appeared and began to spread widely, thus reaching our country.

In the lands of Karakalpakstan, in cities, villages, in every mosque

Schools-mosques providing primary education were opened, their number was 318 in the 19th century seven to [1: 55] Development of education in the Republic of Karakalpakstan stage dates back to the XIV-XV centuries. Soppaslı Sıpira Jıraw of this period, Asan This is clearly visible in the works and thoughts of Jiyrenshe Sheshen. From this except for Kunkhoja, Berdaq Igarğabay uli, Ğiniyaz Kasıbay uli, Ótesh Alshinbay uli, The education of Omar Sûyirbek and many other poets and writers thoughts and national literary writings, admonitions, spiritual forgiveness, etc His literary works have been passed down from generation to generation and have been preserved to this day is our heritage. Reading pedagogical textbooks from 1917 - 1940 methodical manuals began to be written, and through these manuals, Karakalpakstan

The development of the science of pedagogy in the republic increased. These years S. MäjitoV, A. Musaev, Q. Àwezov's scientific works and the importance of his achievements is immeasurable. In conclusion, it should be noted that science and knowledge are a bright light did not exclude our country. Serkuyosh, the land of great scholars In our country, it is related to education and training with the fair policy of our honorable President several work plans were launched. K. A. Gavletsky in one of his poems " Education "The more mature, the happier the people are," he wrote. [1.53] In my opinion, in the future, all parties are perfect, mature and happy The first priority is to educate young people so that they can grow up.
