Learner potential in teaching English and a step-by-step training based on the level and age will give good results. According to psychologists, children learn language faster and easier than adults. Children have a natural tendency to learn languages, they have a strong imitation the fact that children have more time than adults is one of the main reasons for this. That's it should be noted that 6-7-year-old children do not understand the meaning of information, but it is mechanical memorizes in a way. Therefore, to teach English to elementary school students it is necessary not to start with grammatical understanding. Otherwise, it is the beginning of teaching a foreign language from the very beginning, it is possible to strain the child and extinguish his interest. so teaching a foreign language to young children is more difficult and responsible [1].

**Main body:** English for children the following methods can be used to teach the language in a meaningful and interesting way:

- difficult to explain or remember through songs and poems, without meaning teaching letters or combinations to a tune.

It has been demonstrated that teaching youngsters the English alphabet through song is more effective than memorizing it.

- games that combine mental and physical exercise;
- cartoons;

When children do not understand cartoons during language learning, cartoons seeks to understand the words they use through the actions of their characters. And this interesting and effective way for children to learn languages.

- play a role the teacher gives some information, for example, about animals or birds while teaching their names, they should perform them through role play or perform them for children. For instance: one student shows the howling of a dog, the meowing of a cat, another the reader can show which animal these sounds are [2].

- subject environment;

If the teacher can create that environment depending on the topic, the children will learn the language better they learn. For example: traveling, birthday, in the kitchen, etc. Traveling on the subject, the teacher organizes a trip, by what means of travel (foot, bicycle,

automobile, train, boat, airplane) accessibility, where to travel (Tashkent, Samarkand, Bukhara, England, USA) provides information about the importance. This is the case of students strengthens vocabulary, language capabilities, develops worldview.

What Are Some Fun Ways to Teach Vocabulary?

#### 1. Vocabulary A-Z Lesson Plans

You can make your own vocabulary lists using Vocabulary A-Z based on topic, content, or part of speech, and the program will generate lesson plans based on your choices. Regardless of the type of vocabulary list you select, your list will produce a 5-day lesson plan with exercises that motivate students to:

- Draw pictures
- Create picture dictionaries
- Write sentences
- Match words
- Mime concepts
- Choose synonyms or antonyms

#### 2. Cloze Activities

A paragraph with some words deleted from the phrases makes up a cloze activity. Students practice understanding words in context and experimenting with suitable synonyms by coming up with words to fill in the blanks.

Storytelling

Ask your pupils to write a brief story that accurately employs each word in context and according to its description after you have established a vocabulary word list and gone over definitions with them. Students can present their stories with the class, illustrate them, and then explain how the language functions in them.

#### Vocabulary Playlist

Encourage children to make playlists of their vocabulary terms so they can channel their inner rock stars. Playlists can serve as mnemonic tools to assist students in making the connection between a song's message or title and a vocabulary word and its description. The song shouldn't necessarily mention the word, but it should assist the learner recall what it means [3].

**Conclusion:** In conclusion, language teaching to young children is not an obligation, to be conducted in an interesting training style, to teach using several effective methods can serve as a foundation for their future knowledge [4]. To children how important it is to learn foreign languages properly explained through natural conditions are required.
