Abstract: You will learn about globalisation and english language in this article

Key words : global, language, communication, importance

Globalization and English language are said to work as pull factors for one another. English language plays a major role in the progress of Globalization. Globalization of trade and commerce, increasing diversities of work force with different setup values have increased the importance of English language usage

English has increasingly become international language for business and commerce, science and technology, international relations and diplomacy. Due to this fact, the purpose of learning a foreign language is communication. Through communication, people send and receive messages and negotiate meaning.

The first and most important reason for the spread of English is the British Empire. Before nearly a quarter of the world was colonized by the British Empire, English was spoken only by the British. But when they started to trade, colonize with places like Asia and Africa, they naturally started the spread of English.

One of the primary benefits of including English as a global language is that it bridges the communication gap between countries, uniting people of diverse ethnicities, cultural backgrounds, and races around the world.

In this Global world English is the language of the latest business management. English language is not only a means for international commerce, it has become increasingly essential for inter-state commerce and communication. It is the official language of air transfers and shipping, the leading language of science and technology, computers and commerce and a major medium of education.
