The extension of the word IELTS is the International English Language Testing System. That is, it determines how well we know the English language. IELTS scores range from 0 to 9. 0 is the worst result and 9 is the best. After passing the exam, you will receive a certificate based on your results. With this certificate, you can study abroad and in our own universities without an exam or on the basis of an exam, according to the rules of the university. Most universities require at least 5 for bachelor's programs and 6 for master's degrees. IELTS has two modules. Academic and General. The Academic module is for students who intend to further their education, while the General module is for immigration and employment purposes. Both modules have 4 sections: Listening, Reading, Writing and Speaking. IELTS Academic: The IELTS Academic test is suitable for those wanting to study in an English-speaking environment or university (higher education). You can also take IELTS Academic for professional registration

purposes. The test measures if you are ready to begin studying in English. It features vocabulary that is familiar within an academic setting. You can choose whether to take IELTS Academic on paper, on computer or online at home or other suitable location. IELTS General Training: The IELTS General Training test is suitable for those applying to study below degree level. This includes an English-speaking school or college. It can also be taken for work experience or other employment training. IELTS General Training is also required for migration to Australia, Canada, New Zealand and the UK. The test features everyday English language skills that you will need in social and workplace environments. IELTS General Training is available to take on paper and on computer only.

Listening, Reading and Writing tests are taken at the same time. Speaking is usually 2-3 days before or after. 40 questions and 40 minutes are allocated for the list, 10 minutes of which are allocated for copying the answers to the sheet. Audio is played only once. Reading also consists of 40 questions and is allotted 60 minutes. Writing consists of 2 Tasks. 20 minutes will be allocated to Task 1, and 40 minutes to Task 2, for a total of 60 minutes. These three exams will be held simultaneously. A total of 15 minutes is set for speaking.

Where can I take IELTS?

The IELTS exam is held 4-5 times a month in Tashkent and at different times in different regions.

Where can I get information about registering for the IELTS exam?

You can register and get complete information by visiting the Test Center or through the official website of British Council Uzbekistan.

I recommend that you register for the exam at least 2-3 months in advance. Currently, the number of test-takers is very large, so the next 3 months may be completely busy.

How much does it cost to take the exam?

As of August 2021, registration is 1,940,000 soums.

How long is the certificate valid for?

The validity of the certificate is 2 years from the date of passing the test.

Can I study anywhere if IELTS is taken?

Many people ask if I can easily go to countries like America, England, Canada if I take IELTS. No, studying in those countries does not depend only on IELTS. IELTS is only one requirement. Admission to study is nothing, you can apply without difficulty, but getting a visa to those countries is the most difficult. Getting a visa depends on many factors.

How long can I learn IELTS from 0?

IELTS is not a system to learn from 0. To start preparing for IELTS, you must be at least at the intermediate level. It takes 1-1.5 years to get the Intermediate level. For

IELTS, you will need to spend another 4-6 months. This means that you will have to prepare continuously for 2 years from 0 to IELTS 6-7. Again, these indicators are approximate. Depending on your activity and ability, this period can be reduced or increased.
