**Annotation:** the main task in this article is to read fiction books in the reader mainly to inspire enthusiasm for reading the books of urine and religious and educational books, read to teach the daily conduct of his books, and to bless the Prophet sollallahu vasallam talks about further promotion.

**Keywords:** urine, Prophet, thank you, book, history, interest, process, affection - love, kindness, remembrance, culture, literature, formation, attention, admiration, duty.

**Thank You Prophet**

I will start with the name of the kind and merciful God. Infinite thanks holder, all and his Lord, who created the worlds and the creatures of all things, and the Lord of all things, praise endlessly, Thanksgiving. Sent as a thank you to the worlds Sarvari Universe Muhammad Mustafa sollallahu alayhi vasallam continuously and endlessly may abadul-abad salovotu be greetings. Our Lord is the righteous, the All-Wise. thank you. I thought a lot, either God or robbil a'alamin I am a powerless slave kop, my sorrows within me are flooding like a river in my heart erupting as a volcano but something the word does not come to my heart. But you know I know that all people are Muslims and all Muslims, on the other hand, were Prophet Of Mercy Muhammad Mustafa sollallohu alayhi I would like them to understand that it is necessary for the vassalage to know better than themselves. Each a Muslim man and a woman in this life should give their lives if in the first place prophet of mercy Muhammad Mustafa sollallahu alayhi vasallam a man worthy of this I want them to understand that they were.

Indeed, one of the greatest attributes of Allah is the Merciful. Of Rahman. the meaning is merciful to all creatures, giving favors to both the believer and the unbeliever means. Yes, the kindness of God is infinite. A sinner who did not obey God it also provides sustenance to its servants. He is the last prophet Muhammad sollallahu alayhi vasallam was also sent as a prophet of mercy. The Qur'an is said in Karim: "(O Muhammad!) We We have sent you to the worlds with the same thanks." (Anbiya V. 107).

In verse "thank you" means very broad. This fact, Muhammad sollallohu alayhi

vasallam's morals, urates and shamoils, the tolerance of their Sharia, even to the people of blasphemy and shirk from the fact that they do not understand oppression, but are the source of such qualities as kindness and goodness only people who are aware can understand. Thank you Prophet Sarvari Universe Muhammad Mustafa sollallohu alayhi vasallam, The last prophet of Allah, the greatest and most exalted of the prophets,

The messenger that the Lord sent thanks to the whole world, the pride of humanity, the people

Eng they were good-natured and most perfect. He is the Prophet of mercy, the imam of guidance, and the salavotu greetings to him. He they are the messengers and messengers of the Lord of the worlds sent to all mankind with a beautiful sign. U they gave their lives in this world for their community. He is in the Hereafter on the day of resurrection and we intercede on their nations. He is the first to stumble upon the gates of paradise.

By his prophet, God wishes to pour His mercy on this nation he sent down his mercy. Proof of this, there are many Hadith Sharifs as the basis was.

Abu Musa al-Ash'ariy roziyallohu anhu says:

"Rasulullah sollallahu alayhi vasallam told us that they were names with several names: I

Mohammadman, Ahmadman, Muqaffiyman, Hoshirman, Nabiyyurrohma, Nabiyyuttavbaman" < Br > , they were".

Muslim narrated.

Comment:

The narrative mentions three names not mentioned earlier:

1.

Mucaffius.

The meaning of this blessed name is also from behind and Muhammad alayhi means that vasallam is the last prophet.

2. Seizures.

The meaning of this blessed name means prophet of mercy.

3. Nabiyyuttavba.

The meaning of this blessed name means prophet of repentance.

Thank you to the worlds sent to the Lord Of The Universe sollallahu alayhi vasallamni to be a nation worthy of him, to study in depth, to read the histories, to be a nation worthy of him. love, to respect, to protect their honor with our souls and blood, and to this nation is both obligatory debt is. It is born in the Fitra that a person loves his children. According to the Sunnah evidence, one of the hundred thanks of Allah is

distributed among his servants and all have mercy on one by the grace of that divine grace. Even an animal has its own child the Bosma raises the leg. It is noteworthy that the child and parents will have the most loving Muslims. The reward of honoring and honoring parents and children in Muslims is enormous of Deeds. Therefore, Muslims have children in the orphanage and parents in the nursing home do not leave. However, it is also true that children have peat. One is truthful and one is true there are some lying. One sink another is more cowardly. One is fast and another is still more. One

kind, another will be more inveterate, even if rare man his hates his child. How many burns and troubles we give up for their evil feats we will not, we will not. This is because, as we said above, God has given the worlds thanks to the sent Prince of the universe Muhammad Mustafa sollallahu alayhi vasallam his services and prayers are from the baroque. Sent thanks to the whole world, he made some more of the attributes of the noble Sharif we are told by their beloved nephew Husayn roziyallohu anhu: "our prophet from my father about the relationship of sollallohu alayhi vasallam with his interlocutors when I asked, they said, " the Prophet sollallahu alayhi vasallam is always cheerful, gentle and they were a beautiful noble. Rosulullah sollallahu alayhi vasallam is sincere to people in any case they would be in a relationship: they would not blame anyone, they would not reproach or they did not seek to know their secrets.

Only words that rosulullah sollallahu alayhi hoped for the reward of vasallam, when they speak, the companions sit quietly as if a bird was landing on their heads, Rosulullah sollallohu Mustafa sollallohu alayhi vasallam would speak only after they had finished their words. Rosulullah sollallohu alayhi vasallam first began to speak the word Sahaba listen, laugh at what the companions laugh at, Wonder at what they are surprised at, a stranger persevering with the rude words and inappropriate demands of a person, the companions who saw this are unfamiliar wanting the man to be taken out to the edge, if they grabbed his hands, they said: "he asked for his need when you see a man, help him!"- they were.

Rosulullah sollallahu alayhi vasallam receives praise from worthy people, no one will say his word until he finishes it, but if he goes too far, he will say his word it would be by returning or getting up from their seats " Imam Termiziy narrati. Uthman ibn Hunayf is narrated from roziyalohu Anhu: \*The blind man came to the Prophet sollallahu alayhi vasallam and said: "Heal Me bless God in his giving." Then he said, " If you wish, I will delay and it is better. I will bless you if you wish." U the man said, " Bless. Then he took that man a beautiful ablution and recited the prayer of the two Rak'ahs, they ordered the following prayer: "Allahumma inniy as'aluka and atavajjahu ilayka bi Muhammad's nephew rohmati". (That man) o Muhammad sollallahu alayhi vasallam this is my need he said To My Lord, " O My Lord! accept the intercession of sollallahu alayhi vasallam." Meaning: My God will turn to you and bless the Prophet Muhammad sollallahu I ask vasallam as vasila. The citation reads "prophet of mercy

Muhammad sollallohu alayhi vasallamni vasila so the sentence "I ask" is evidence that it is permissible to make a person a vassal. The greatest of the muhaddis these hadiths were considered authentic.

The month before Robi'ul is a month of great happiness and joy for Muslims, which is thanks to all the Worlds on the moon, two world monarchs, The Prophet of the end times Muhammad those who were born in sollallahu alayhi vasallam. This month Muslims have a special spirit and a great they are greeted with preparation, and a little bit of love for the Messenger as an appearance, mavlidi sharif events and salovot zikri competitions are held, therefore for it, special attention is paid to the study of the urates of the breed. Allahumma solli a'la sayyidina Muahmmad.

Naqshbandi's upbringing is based on the secret method of remembrance chosen by the Lord of Naqshband, the King built. It was developed by the great governors who liked the method and until our present day may have arrived. This method and etiquette are from the verses of the Quran, the prophet of mercy Hazrat Muhammad from the circumcision of sollallahu alayhi and Sallam, and from his honorable companions taken from their cases. This system of upbringing is a link to the Qur'an and Sunnah with all its existence. All the system of upbringing and the manners within it rely on the main sources of our religion. These are the manners of the Quran and in Sunnah it is either openly marked or accepted by gesture, Act and silence. I.e., there is nothing in this way that does not correspond to the spirit of Islam.
